WBF Disciplinary Hearing

Dear Mrs Heth,

Dear Mr. Polisner,

Thank you for your letter from March 9th 2014, I was provided with the letter of Dr. Wladow / Dr. Elinescu.

1. I only can repeat that despite of our intensive efforts a personal appearance of one of the board members of the GBF in Dallas could not be rendered possible. Unfortunately the date was not coordinated in agreement with us.
2. Because we do not previously know which evidence you, Mr. Polisner, will present to the court we cannot decide whether a personal appearance by us is necessary or not.

Furthermore we do not know whether there is more evidence which will be presented not until the hearing.

Insofar I had asked for a "completeness statement" in my letter from February 26th 2014 – unfortunately without effect.

In conclusion I request to cancel the appointed day.

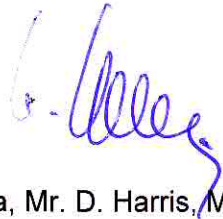

3. I also repeat my request to close the proceedings against the GBF. Such an adjudication can be made by the panel **before** the appointed day.

I plenary agree with you, Mrs. Heth, that the WBF Disciplinary Code is the legal basis of the proceedings in fact with the exclusive sanction catalog referring to Cipher 4., a) to e), also look at Cipher 5., Sentence 5.

Neither you, Mr. Polisner, nor the US-American team claim any involvement of the GBF in actions which are subject of the disciplinary investigations. Everything else would be seen as scandalous by the GBF.

4. After our internal investigations, especially in consideration of the provided evidence, the suspicion of deceit was not confirmed. In addition Dr. Wladow and Dr. Elinescu asseverated unmistakably to us that the allegation they are accused of do not apply and were not committed by them

Kind regards,
Ulrich Wenning
President
